

Central Illinois SVT and Performance Fords 2nd Annual Meet

Saturday, April 16, 2011

Schedule of Events:

11:00 am – Registration

Each participant will be assigned a car number and you will be given a voter's card.

11:00 am – 12:00 pm – Show and Shine (Meet and Greet)

12:00 pm – 1:00 pm – Mustang Engine Tuning Controls Overview by Brian Young

Brian Young, a former Ford Mustang Engine Calibration Engineer, will give an overview of the powertrain controls logic that operates our engines. He will describe how the code logic works and will specifically hit on the "Big 3" – induction (air meter), fuel system, and spark control systems. Practical tuning examples of the ramifications of changing hardware and what are the correct methods to "tune" the controls to provide optimal operation and OEM drive quality will also be given. He will then give a demo of some calibration tools and hardware used to tune. Brian is widely known on Svtperformance.com as sonicmach1. You can find him at his 2003 Redfire Cobra (VENOM).

1:00 pm – 2:30 pm – Lunch (on your own)

PLEASE BE SURE TO HAND IN YOUR VOTES BY 2 PM.

2:30 pm – Awards

(Best SVT, Best Performance Ford, and Hooters' Choice)

3:00 pm – Terminator Picture/Photo Opportunity

*Have a safe trip home. Please post any pictures or videos for all to see on the boards.
Thank you for participating and we hope it will be even bigger and better next year.
Kyle and Kevin*
